	12-Oral	OralStat6: AMP/METH/THC/COC/OPI/PCP	25	<b>\$13.75</b>	\$343.75

**TRAINING MATERIALS AND SERVICES:**

ABMC will be very flexible in meeting the training needs of each agency that purchases our products. Training will be coordinated between the person in charge of training for the agency and the local ABMC Director of Business Development: Anne Becknell, direct office phone: 303-840-2607. The various training methods are described here and any agency may use one or more of these to achieve their training goals.

**Onsite Basic Training:**

This will include a basic background on drug testing so that everyone understands the basic principles. It will also include a complete training on proper sample collection and use of all products the agency will be using in their drug and alcohol testing programs. Current issues such as sample tampering will be included. This generates a good discussion and helps staff gain a better understanding of drug testing.

**Onsite Train The Trainer:**

This will include everything that is in the basic training course. More drug testing technology will be given as well as information on drug metabolism, cross-reactivities and key points to use when training others. This course will be done regionally if possible, but we will work with each agency as needed. The result will be an internal resource on the drug testing process for all staff performing drug testing.

**CD ROM/ Video/ Web-based:**

This training can be done anytime that is convenient for the staff. It can be done individually or as a group. The web-based training also has a test at the end that will generate a certificate if the individual passes the test.

**Ongoing Continuing Education:**

ABMC will work with the various agencies to provide ongoing training and updates on new and current topics in the world of drug testing. We have a resource of experts in the field of drug testing that we use for outside consultation and for speaking at conferences. We are willing to work with local professional organizations if such a speaker is needed for a conference program.
